PROFESSIONAL PROFILE

FINANCIAL SYSTEMS SPECIALIST & IMPLEMENTATION LEAD

Highly versatile professional with 10+ years of proven experience in Accounting, Financial Management, and Software Development. Expert in bridging the gap between complex financial requirements and technical delivery. Demonstrated success as an Exclusive Agent, where he managed the full business cycle (sales, negotiation, implementation, and technical support) for a financial software solution in a regional market. Combines strong analytical abilities with Full-Stack JavaScript skills (React, Node.js, PostgreSQL). Seeking an ERP Consulting, FinTech, or Business Analysis role.

TECHNICAL & LEADERSHIP SKILLS

Consulting & Implementation	Full business lifecycle management, Contract Negotiation, Client Needs Analysis, Process Optimization, Software Quality Assurance (QA).
System & Technical Integration Support	Advanced System Troubleshooting (incl. network conflicts/hardware dependencies), Client-Facing L1/L2 Technical Support, Software Quality Assurance (QA).
Financial Systems	Expertise in ERP systems, General Ledger (GL), AP/AR, Payroll, Cost Controlling, IFRS/local GAAP principles.
Databases & Back-end	PostgreSQL, MongoDB, NodeJs, Express, RESTful API, Advanced Data Analysis (SQL).
Front-end	ReactJs, HTML5, CSS3, JavaScript, Redux.
Tools & Software	Advanced proficiency in MS Excel (Data Modeling & Reporting), MS Office, Git.
